## A place to garden and grow...together

### Grow Your Own Flowers, Fruits and Vegetables

Have you wanted to learn how to garden or just don't have the space at your home? Have you been wanting to teach the "little ones" where their food comes from? Then a community garden may be just what you need. Community gardening is perfect for apartment dwellers, senior citizens and families with young children.

- We provide the compost and mulch.
- We will assist you in designing your garden.
- We will provide some of the tools.
- Gardening experts will be on hand periodically to assist.
- Come and go at your leisure.
